### Your Sun, Mercury and Jupiter mirror your way of being, speaking and creating chances for yourself

 in  Sun in Sagittarius

#### Romance - how you act

You revel in taking things as far as they will go. You are generous and wish everyone to share in your happiness - often before you have enjoyed it yourself! A natural teacher and generous visionary, your concern for the future drives you into taking on every opportunity you meet. This can lead you into over-involvement in too many things. You become over-stretched, depleted, even desperate. Regain your strength by being and moving in the open air. Enjoy action for its own sake. Move and be free. In this way discover and re-discover your direction. Experience the exhilaration of pointing to goals in life that will achieve all you wish for. Then enjoy the sheer riding experience of making the journey.

#### What you think and say about love

You guard your words carefully. What is said has to be useful, or it is not worth saying. When you do make a point, you push it with firm persistence. It is difficult to listen to others and accept you might be wrong. Conversations and "too much mental activity" can seem an irritating distraction. The crucial thing is to set out systems and techniques and carry them through, quietly and effectively. Your words carry authority and conviction. You are not a person to be denied.

#### How you create opportunities for romance

You create opportunities by plunging expansively into new situations. You constantly need to be bursting into fresh adventures and projects. You are fun to be with, always willing to "have a go" at anything exciting. Be aware you may be creating more expectation than you can accomplish. To experience more than the exhilaration of making a start is not so easy. Be realistic. Know what you want and persist.

### How you act, wonder and behave is revealed by your Venus, Mars and Neptune

#### When you are in love

You expect so much from love and relationships that you test new lovers, as if they were interviewees for a job! Love to you is a major commitment and something that must grow steadily to an ultimate achievement. What other people think is vitally important. You can act as though your relationship is exposed to public scrutiny, even when no one else knows about it. The protection of propriety is always in your mind. Once through these trials, you work hard to ensure relationships last. Try to allow in joy and delicacy. Something so important should also be fun.

### **Romantic approach**

You love and continue to love in the way you wish. You are firm in your resolve and determined in your actions. Because your path in life is uniquely and resolutely your own, it is not easy for you to adapt yourself to lovers. Obstacles are unacceptable. Those that will not be walked over, you refuse to be affected by, but carry on regardless. Stop, before you wear yourself out! Make a special effort to learn from your lover's response to you. Know the reliable and building joy of combining each other's energy, know they have somewhere to go. Your courage and willingness is just what they need to get them there. You need their endurance.

### **What fascinates you about love most of all**

You are of the generation of people, who are fascinated by those dark and unusual depths of the psyche, where jewels of wonder stir with unnerving passion. Accepted way of behaving takes second place to experiences that are difficult to deny. You cannot resist playing with fear, experimenting with the dark side and plunging into extreme limits of sensation. Confront and transform all this desire into something truly wonderful. Let the honesty of true contact make lovers permanently yours.
